---

PROFESSIONAL SUMMARY

Software Developer with **3+ years of experience** in designing, developing, and maintaining scalable web applications using **Angular, Java, Spring Boot, JavaScript, TypeScript, REST APIs, and MySQL**. Strong expertise in frontend development, backend API integration, reusable UI components, dashboards, and enterprise application support. Hands-on experience in the full software development lifecycle, bug fixing, production support, Agile methodologies, and cross-functional collaboration.

CORE COMPETENCIES & TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript, TypeScript, HTML5, CSS
- **Frontend Technologies:** Angular 8+, Angular Material, Bootstrap, React
- **Backend Technologies:** Java, Spring Boot, REST APIs
- **Databases:** MySQL, Node
- **Tools & Platforms:** Git, GitHub, Jira, Docker, Postman
- **Development Skills:** API Integration, UI Development, Responsive Design, CRUD Operations
- **Architecture & Concepts:** OOP, MVC, SDLC, Component-Based Architecture
- **Soft Skills:** Problem Solving, Teamwork, Time Management, Communication

---

PROFESSIONAL EXPERIENCE

AI First Software Engineering Course

Airtribe
Feb 2026 – Present

- Started an intensive software engineering program focused on Data Structures & Algorithms, System Design, and Full-Stack Development with AI.
- Built end-to-end web applications using Angular, Java, MySQL, and Spring Boot, following industry best practices.
- Solved algorithmic problems covering arrays, linked lists, stacks, queues, graphs, dynamic programming, and greedy techniques.
- Developed RESTful APIs and implemented authentication, authorization, and secure backend architecture.

Frontend Developer

Husys Consulting Ltd | India
May 2023 – Sep 2024

- Developed modern web applications using Angular 13/15 and integrated REST APIs.
- Built analytics dashboards using Angular Material and Chart.js.
- Created reusable base components using Bootstrap.
- Implemented drag-and-drop functionality and export/download modules.
- Reduced production issues through bug fixes and UI optimization.
- Worked on Figma UI design.
- Resolved backend api bugs and issues.
- Worked on API integration.

SDE-1

Trustt / Novopay | India
Jan 2022 – Mar 2023

- Worked with the Loan Management System (LMS) team for banking clients.
- Collaborated with HDFC Bank for loan product enhancements.
- Developed applications using Angular, JavaScript, TypeScript, and Bootstrap.
- Coordinated with backend teams for REST API development and integration.
- Delivered modules aligned with business requirements and timelines.

PROJECT EXPERIENCE

Banking Loan Management System

Role: Software Developer
Technologies: Angular, Bootstrap, Java, Spring Boot, MySQL, REST APIs

- Developed loan onboarding, approval, repayment, and customer management modules.
- Built a responsive UI for loan officers and customers.
- Integrated backend APIs for loan workflows and status tracking.
- Improved loan processing efficiency through automation

Godrej Analytics Dashboard

Role: Frontend Developer
Technologies: Angular, Bootstrap, Docker, Python

- Developed an analytics dashboard for business performance monitoring.
- Designed a secure login/sign-up system.
- Built data visualization modules for reports and insights.

EDUCATION

B.Tech – Computer Science & Engineering

Dr. Babasaheb Ambedkar Technological University
2016 – 2021 | CGPA: 7.9
College: Matoshree Prathisthan Group Of Institutions, Nanded

HSC - 12th

Jawahar Navodaya Vidyalaya
2015-2016 | Percentage: 70
